Subject: Inchem assessment on MCH

Wendy,

As asked on the call, there is no INCHEM assessment for MCH.

Here's the INCHEM assessment.

Matt,

The list that you have would be our preliminary list of chemicals in the tank with the exception that there was one more unknown identified by the VOC analysis:

Unknown, masses, masses 79, 94, 55 and 67

Ex. 5 - Deliberative

I am going to tentatively set a call for tomorrow afternoon (first available time to collectively gather this distribution list), but there is a briefing tomorrow morning that may or may not make this discussion

necessary/relevant.

Thanks!

Wendy,

I should be able to get the list of chemicals thought to be in the tank out perhaps this afternoon, more likely tomorrow morning.

Eric

Good morning,

Just wanted to check in primarily with Matt and Eric, to see how we are coming along with possible tentatively identified compounds associated with the contaminants related to the incident?

Thanks for your help!
